INTRODUCTION

MLS Hawaii, Inc., the leader in on-line data networks, proudly introduces the **Rainmaker** program, on-line access to statewide Business Registration and Professional Vocational Licensing information from the Hawaii State Department of Commerce and Consumer Affairs office.

We're bringing public information *to you*.

The **Rainmaker** is simple to learn, easy to use, and the convenience of on-line access will save time, money, and ultimately increase your level of success. With applications in research, investigation and marketing, the **Rainmaker** is a powerful tool in today's competitive market.

This manual is designed to assist you in accessing these databases and explains the terms used as field names.

If personal assistance is required, please feel free to contact a customer service representative, Monday through Friday, 9am to 5pm, at (808) 599-4224 (Oahu), or toll free (800) 628-3121 (Neighbor Islands).

OVERVIEW

The **Rainmaker** database contains current information from the State of Hawaii's Department of Commerce and Consumer Affairs' (DCCA), Business Registration and Professional Vocational Licensing Offices (updated quarterly and biannually respectively).

Business Registration (BREGS) data includes domestic and foreign corporation records, general and limited partnership records, reservation of corporation names, registrations for tradename/marks and temporary records.

Professional Vocational Licensing (PVL) data includes the names of all persons or businesses involved in activities, occupations or trades, for which a license is required by the State of Hawaii's Department of Commerce and Consumer Affairs.

Connecting to REsearch™ with an ISP

If you have an Internet Service Provider (ISP), you are probably using Windows95, 98, NT or Macintosh. What software are you going to use?

Any communications software that includes Telnet protocol will work. Once you have a communications program that uses the Telnet protocol, you'll be able to configure it to access our system.

For Windows, we recommend the updated version of HyperTerminal (Private Edition 4.0) by Hilgraeve. Windows98 users don't have to worry about downloading this software. Windows98 comes with the latest version of HyperTerminal. Another really good Telnet communications program is CRT. Macintosh users who have an ISP can download the BetterTelnet software; it is good (and free.)

Configuring Your Software

1. First connect to your ISP (Internet Service Provider.) Now Minimize your ISP.
2. Open your chosen communications program. (Remember, it must have Telnet capability.)
3. In the Host address: box, enter **research.hawaiiinformation.com**
4. Enter **23** in the Port number: box.
5. Find the keyboard settings and change the BACKSPACE KEY behavior to use the **DEL** option.
6. If your chosen Telnet program has TERMINAL EMULATION change it to **VT100**.

You should then see:

Trying RESEARCH . . . Open

Username:

You are now connected to our system. Enter your REsearch™ username at this point.

Example connecting to REsearch™ after you have configured your software:

1. First connect to your ISP (Internet Service Provider) and then minimize.
2. Open your chosen communications program. (Remember, it must have Telnet capability.)

Trying RESEARCH . . . Open

Username: LUCKY

Password: (Password won't display!)

Connecting to REsearch™ *without* an Internet Service Provider (ISP)

**IF you don't have an ISP but are running Windows95, 98 or NT
(or) you have a Mac with Internet software.**

**If your computer is running Windows 3.1.
(or) your computer doesn't even have Windows!
(or) your using a data terminal (video, Panasonic, Texas Instruments.)
(or) you have a Mac without Internet software.**

In this case, you will use one of our *courtesy accounts*.

These accounts will not allow you to surf the Internet, they are only for REsearch™.

Courtesy Accounts

We understand that not everyone has a need or desire to have an internet connection, and that some companies/individuals have connections with time limits. So, we're providing internet connections that go directly to our REsearch™ site *at no additional cost* to our customers.

Find the island that you will be connecting from, and set your dial-up phone number to the one shown.

Island	Dial-Up #	Courtesy Login	Password
Oahu	942-8899	research1	mIshawaii
Maui	875-4600	research2	mIshawaii
Hawaii	934-9058	research3	mIshawaii
Kauai	246-2800	research4	mIshawaii

These connections support up to 56K modem speeds. Your communications software needs to have the following settings:

**8 data bits
parity NONE
1 stop bit**

Courtesy Accounts, Con't

When you connect using the above dial-up numbers, you'll need to tell the Internet Service Provider that you're using one of our courtesy accounts.

The way to do that is by identifying the courtesy login. Find the correct courtesy login from the table above. Enter the courtesy login and password in all lowercase letters, as shown in the sample below.

```
dialing number...
...connection sounds
Welcome to 3Com Total Control HiPer ARC (TM)
Networks That Go The Distance (TM)

login: research1 (User dialing from Oahu)
Password: mlshawaii (the password won't display)
Trying 198.180.136.69 . . .
Connected to 198.180.136.69.
Trying RESEARCH . . . Open

Username: Lucky
Password: (the password won't display)
```

You are now connected to our system.

Logging into REsearch™

Once you have logged into the Internet whether by your own ISP or using one of our courtesy accounts you must always also log into REsearch™.

1. Username: (Enter your MLS Hawaii username)
2. Password: (Enter your MLS Hawaii password) *Your password will not print for security reasons.
3. A disclaimer will appear, press **return to proceed**.
4. A Service Directory will appear. Select the service you wish to utilize.

Example: USERNAME: **Lucky**
 PASSWORD: ******** (Your Password does not print for security reasons)

**A disclaimer will appear.*

INFORMATION DEEMED RELIABLE BUT NOT GUARANTEED Press return to proceed

Service Selection Menu

Once the user has entered the correct Username and Password and accepted the terms and conditions of the disclaimer, a menu will appear. Simply select the service you wish to utilize by typing in just enough letters to distinguish your choice from the other services.

Example

Welcome to REsearch™!

What do you want to do?

Business Search the Business Registration Database
Licenses Search the Professional and Vocational License database
Mail Send and Receive electronic mail
Help
Quit

On this, and other questions with options, you can enter just enough letters to make your choice clear.
Just press RETURN by itself to search TMK.

What do you want to do? [TMK]: **TMK** or **T** or *<Press Enter>*

REsearch™ Search Levels

REsearch™ has three experience levels, (1,2,3). Level 1 is great for beginners who need prompting, Level 3 is for the experienced user, and Level 2 is in-between. Following is an example of the same search completed in all three levels.

LEVEL 1 (*Beginner*)

What do you want to do? [TMK]: **TMK**

You can search for property by any of these primary features:

Taxkey, Street, Project, Owner, Lessor, Lessee, Grantee, Addressee

Using one of these helps REsearch™ find property more quickly.

Now you can specify other features you want.

Enter one feature on a line.

When you are finished, press RETURN by itself.

Request a feature: **1-9-8-39-9-1**

Request a feature: *<Return>*

Select the format in which to display the data.

You may enter any of the following:

Names of standard formats, such as SHORT, MLS, or FULL.

Names of custom formats you have saved

Names of individual features.

Show : **SHORT**

You can Find property now, or choose from one of these:

Recap the features you requested

Modify the requested features

Clear all requested features and start a new search

Save a the current format or current request

Just press RETURN for the option in brackets.

[Find], Recap, Modify, Clear, Save, Help, Quit: *<Return>*

LEVEL 2 (*Intermediate*)

What do you want to do? [TMK]: **TMK**

Request a feature: **1-9-8-39-9-1**

Request a feature:

Show : **SHORT**

[Find], Recap, Modify, Clear, Save, Help, Quit: <Return>

REsearch™ Search Levels, (Cont.)

LEVEL 3(Advanced)

What do you want to do? [TMK]: **TMK**

Request: **1-9-8-39-9-1**

Request: <Return>

Show : **SHORT**

[Find], Recap, Modify, Clear, Save, Help, Quit: <Return>

Changing your Search Level

To change your Level, simply type “**SET LEVEL**”, followed by the level you wish to utilize at any “Request a Feature:” prompt. Once you have chosen your level, type “**SAVE**” at the [Find], Modify, Clear, etc.” prompt. REsearch™ will now ask you if you would like to save your Request, Format or Script; type “**SCRIPT**”. (NOTE: You can have different levels on each program we offer! For example, you could be using Level 3 in TMK and Level 1 in Business Registration.)

Example

Request a Feature: **SET LEVEL**

Enter a level from 1 to 3. Lower levels have more detailed instructions.

Level: **2**

Request a Feature: <Return>

[Find], Recap, Modify, Clear, Save, Help, Quit: **SAVE**

Save [Request], Format, Script: **SCRIPT**

OR

Request a Feature: **SET LEVEL 2**

Request a Feature: **SAVE SCRIPT**

(Shortcut to setting and saving your level)

NOTE: Remember, once you SAVE your script it will remain in the level you have chosen for each user after you. If you would like to utilize one level but do not wish to change it for the other users in your office, DO NOT SAVE! Once you log out, REsearch™ will revert back to the previous level.

[Find], Recap, Modify, Clear, Save, Help, Quit:

REsearch™ now gives the user an opportunity to RECAP or MODIFY or even CLEAR their search before it begins. “[Find], Recap, Modify, Clear, Save, Help, Quit:” is the last prompt before you begin your search. You can simply press Enter or Return and REsearch™ will begin to find the matching properties, or you can choose something else from the menu line.

FIND

FIND will always “**FIND ALL**” of the properties that match the criteria selected.

Example:

[Find], Recap, Modify, Clear, Save, Help, Quit: **<CR> to find all**

If you wish to “quantify” how many records you wish to receive verses “ALL”, simply tell the computer to FIND 6, or F 6.

Example:

[Find], Recap, Modify, Clear, Save, Help, Quit: **FIND 1**

or

[Find], Recap, Modify, Clear, Save, Help, Quit: **F 20**

RECAP

RECAP allows the user to see what has been requested so far.

Example:

[Find], Recap, Modify, Clear, Save, Help, Quit: **RECAP**

Current Requests:

TAXKEY 1-2-6

CONDO

TENURE F

OWNER OCCUPIED

MODIFY

MODIFY allows the user to *change, delete* or *add* to their search before they execute it.

Example:

[Find], Recap, Modify, Clear, Save, Help, Quit: **MODIFY**

Request a Feature: **SOLD SINCE 12/1/95**

[Find], Recap, Modify, Clear, Save, Help, Quit (Cont)

CLEAR

CLEAR allows the user to clear all requested features and start a new search. ALWAYS clear when you are ready to being a NEW search!

Example:

Press ESC to begin a new search or Clear

[Modify], Find, Recap, Clear, Save, Help, Quit: **CLEAR**
CLEARED

Request a Feature:

SAVE

SAVE allows the user to save the current *FORMAT, REQUESTS* or *LEVEL*.

Example:

[Find], Recap, Modify, Clear, Save, Help, Quit: **SAVE**
Save [Request], Format, Script:

HELP

HELP allows the user to receive on-line help. Simply type “**HELP**” to display a list of topics.

Example:

[Find], Recap, Modify, Clear, Save, Help, Quit: **HELP**

QUIT/ BYE

QUIT allows the user to return to the main menu. BYE exits the user totally out of the system and bypasses going back to the main menu.

Example:

[Find], Recap, Modify, Clear, Save, Help, Quit: **QUIT**

What do you want to do?

```
TMK      Search TMK public record data (MLS data included)
Project  Search the Condominium Project database
Mail     Send and Receive electronic mail
Help
Quit
```

What do you want to do? [TMK]: **QUIT (Type in quit again to exit) or**

[Find], Recap, Modify, Clear, Save, Help, Quit: **BYE**

CONTROL KEYS

The **Rainmaker** provides special “Control Keys” to assist you in searches. The control functions listed below work with data terminals and IBM compatible systems. If utilizing a Macintosh device, depress the “Open Apple” key and Control key simultaneously, then press C, U, Z, S or Q.

CTRL C - Stops a search and returns you to a Request: prompt. Pressing **ESC** (escape key) will also stop your search.

CTRL S - Pauses the data from scrolling.

CTRL Q - Commands the computer to resume scrolling.

CTRL U - Erases the information that is being typed in at the current Request: prompt.

CTRL Z - Used at the Request: prompt returns the user to the main menu. When used at the main menu, **CTRL Z** exits the user from the Research™ system.

WILDCARDS

Wildcards are represented by asterisks “*”, and question marks“?”. They allow the search to include various possibilities that may exist within the system. An asterisk between two words commands the computer to find the two words, including any and all characters in between, no matter how many. The “?” is used in place of one letter within the name to allow for variations in spelling. For more information turn to KEYWORDS AND SYMBOLS, page 7.

ALWAYS use an asterisk when searching by an officer’s or licensee’s name!

Request: **Officer Smith*Nancy** or to check for other spellings...

Request: **Officer Sm?th*Nancy** (will show Smith, Smyth, and Smythe!)

ON LINE HELP

Simply typing “**HELP**” followed by the field/format or topic of your choice will allow you to receive on-line help. You may also ask for help at any given prompt to know more about that particular prompt. For example...

SHOW: **Help** (displays information on the “**SHOW**” prompt)

or

REQUEST: **Help Status** (displays information on the fieldname “**STATUS**”)

or

REQUEST: **Help Download** (displays information on the “**DOWNLOAD**” function)

SPELLCHECK

There is an officer name, company name, and licensee name **SPELLCHECK** feature available. It will be initiated automatically if the computer cannot find an “exact” match. If you are not sure how to spell a name, enter enough characters to make the search unambiguous to the computer.

Request: **OFFICER NAME Sutter*Syl**

(There is no officer with exactly that name. Here are some close to what you requested.)

1. Sutter, Sylvester T

Enter the number(s) of the officer you want [none]: **1**

KEY WORDS AND SYMBOLS

Access Level To change your access level, type “**SET LEVEL**” at any “Request:” prompt and then choose your desired level, **1** for beginners, **2** for intermediate, and **3** for advanced. Choose “**SAVE**” at the “[Find], Modify, Save, etc.” prompt, then choose “**SCRIPT**”.

Example:

Request: **SET LEVEL**
Level: **3**
[Find], Modify, Recap, Save: **SAVE**
Save [Requests], Format, Script:**SCRIPT**

Find Used at any prompt will initiate searching. Typing “**Find**” or “**F**”, followed by a number tells Rainmaker how many records to find.

Example:

Request: **FIND 25**
or
[Find], Modify, Recap, Save: **F 25**

Using the default [FIND] will produce only the first five(5) records.

Count The “**COUNT**” command allows you to determine the approximate number of records matching your request without printing or scrolling through each record.

Example: **SHOW: COUNT**

ESC Stops a search and returns you to “[Find], Modify,etc.”

Quit, Pau At main menu to leave REsearch™, or at any other prompt to return to the main menu.

Bye At any prompt to leave REsearch™.

Recap At any “Request:”prompt to see the current requests made.

List To view a list of *saved custom formats* or *saved custom requests* type “**LIST**” at any prompt, then choose “**Saved Formats**” or “**Saved Requests**” or simply type “**LIST FORMATS**” or “**LIST REQUESTS**” at any “Request:” prompt.

KEY WORDS AND SYMBOLS CONTINUED...

- * **PURPOSE SEARCH** - To search by company purpose it *is essential to use the Research™ wildcard feature “*”!*

Examples:

Request: **PURPOSE *Health*** (1 Key word)

- or

Request: **PURPOSE *Real*Estate*** (2 or more Key words to be found together)

- or

Request: **PURPOSE *Real*Estate, Invest*** (2 or more Key words to be searched separately)

It is necessary to utilize the wildcards for “PURPOSE” searches. It is precisely the placement of the wildcards and commas in the request that instructs the program how to go about each individual search.

ADDRESS SEARCH - May be searched using street names *and* numbers. This field is not easily searchable, so it is important to **ALWAYS** use wildcards (*) before, after and in between the address as shown below.

Examples:

Request: **ADDRESS *Kapiolani***

or

Request: **ADDRESS *677*Ala*Moana*B***

(There is no spellcheck feature for this search.)

- &** To add fields to the “Show:” prompt or a custom format.
Example: Show[Custom]: **&Officer, Purpose.**
- ^** To omit fields from the “show” prompt or a custom format.
Example: Show [Custom]: **^Officer Name**
- @** Takes you back to the previous prompt.
Request:
Show: @
Request:

DOWNLOADING - LOTUS 1-2-3

The **Rainmaker** is able to format data specifically for downloading to LOTUS 1-2-3. The same format can be used by many other spreadsheets and word processing programs, although some editing may be required. To activate the download format, use the **SHOW** command to specify the fields you want downloaded, and include the word **DOWNLOAD** (or just **DOWN**). An example follows:

BREGS Example #1

Company Name: **ALOHA INTERNATIONAL***
Request: *[Return/Enter]*
Show: **OFFICER NAME,TYPE,FILE #,STATUS, DOWNLOAD**

The downloaded data is formatted to have commas separating fields. Text fields are quoted and numeric fields are not. This arrangement is called "Partially Quoted Comma Separated Variable File" format. When the data is imported to LOTUS using the **"/FILE IMPORT NUMBERS"** command, the numeric fields will be treated as numbers, and the text as labels. The first line of data downloaded is always a set of column headers.

The **LABEL** format is the only *predesigned* format compatible with the download function. The **LABEL** format includes Name and Address of company, officers, licensees. There are two **LABEL** download formats. Both are comma delimited but only one separates the first and last name of the addressee. To separate the *first* and *last* name of the officer or licensee, simply type the command **SEPARATE** or **SEP** before your label and download command. Follow the examples below:

BREGS Example #2

Request: **TYPE FN**
Request: **STATUS A**
Request: *[Return/Enter]*
Show: **LABELS, DOWNLOAD**
 (see page 17 for example)

PVL Example #3

Request: **TYPE BAS**
Request: **ZIP 968***
Request: **STATUS C**
Request: *[Return/Enter]*
Show: **SEP LABELS, DOWNLOAD**
 (see page 37 for example)

NOTE: With the exception of the **LABEL** format, everything else must be listed out by field name as shown in example #1 above.

**BUSINESS
REGISTRATION
(BREGS)**

BREGS FORMATS

- FULL**.....This is the most complete format. All available information on the business is displayed.
- COMPANY, CO.**..Shows company type, incorporation state or country, company address, local address, service address (everything but officers).
- OFFICERS**.....Format shows the list of officers in the company, their position, status, and personal address.
- OFFICER**..... Format used only when searching by an individual officer. The “**OFFICER**” format shows that officer’s name, position, address, and status.
- OFFICER SHORT** Format used only when searching by an individual officer. The “**OFFICER SHORT**” format combines the “**OFFICER**” and the “**COMPANY**” formats.
- SHORT**..... Format includes the “**COMPANY**” and “**OFFICERS**” formats combined.
- TRANS**.....Shows transactions involving the company and includes trans date, type, status, and description.

BREGS FORMATS CONTINUED....

LABELS.....Shows name and address of company and/or officers.

**LABELS,
DOWNLOAD.....** Shows name and address of company and officers in a Lotus 1-2-3 Download / Comma, Quote Delimited format (,“”).

**SEP LABELS,
DOWNLOAD.....** Shows name and address of company and officers in a Lotus 1-2-3 Download / Comma, Quote, Delimited format (,“”). (First name and the Last name are separate fields.)

Create Your own Custom format!

To create your own format, simply enter the fields and/or formats of your choice. Separate the fields and formats with commas.

Example: Show: COMPANY NAME, STATUS, TYPE

RAINMAKER SEARCH EXAMPLES

There are basically two kinds of searches in the Rainmaker, we will refer to them as **Specific** and **General**. A specific search is one where key pieces of information are known (i.e. Company name, Officer name, etc.) and utilized to access a specific company's record or records. A general search is when the user desires a listing of many companies sharing similar features (i.e. domestic companies for profit or only companies located in Kailua, whose purpose is physical therapy, etc.).

BREGS Specific Search - Company Name, Officer Name, File#, etc.

Company Name: **GIBB**

*There is no NAME with exactly that name.
Here are some close to what you requested:*

```

BREGS General Search -Company Purpose, Co. Type, etc.

A successful general search begins with a well defined request. The more “fields” that are qualified, the more specific the search will be. For example, a search to “*Find all of the active domestic corporations in Kailua involved in physical therapy work for direct mail marketing*”, is a well defined search request. This statement can now be broken down into smaller requests that satisfy the programs “request fields”.

Company name: [Return/Enter]
Request a field: **TYPE DP**
Request a field: **ZIP 96734**
Request a field: **STATUS A**
Request a field: **PURPOSE *Physical*Therapy*** (*Wildcards, see WILDCARDS, pg. 8)

Example: Request: File # DP-72496

Status Status of the corporation record , partnership registration record, reservation record, or temporary record.

Example: Request: Status A

Status Codes:

A Active
C Canceled
D Voluntarily Dissolved
E Expired
I Involuntarily Dissolved
M Merged
P Pending
R Revoked
W Withdrawn
X Involuntarily canceled
1 Delinquent report - Notice sent
2 Delinquent report - Notice of Involuntary Dissolution sent.

Purpose Purpose of the corporation, nature of business of the partnership or purpose for a tradename, products identified by trademark, or service identified by a service mark (must use *wildcards*).

*Example: Request: Purpose *INVEST**

NOTE: To format the field PURPOSE sepecifically for downloading in a LOTUS 1-2-3 fashion, type “**PURPOSE DOWN**” at the Show: prompt. For more information on Downloading turn to page 9.

Address Principle mailing address of the corporation, partnership or current owner of the trade name/mark.

*Example: Request: Address *1993*KIHEI*R**

or

*Example: Request: Address *KUAKINI*H**

BREGS SEARCHABLE FIELDS CONTINUED...

Address 2 Second line of address.

Address 3 Third line of address.

City The city within the mailing address of a corporation, partnership, or current owner of the trade name/mark.

Example: Request: City HILO

State The state within the mailing address of the corporation, partnership or current owner of a trade name/mark.

Zip The zip code within the mailing address.

Example: Request: Zip 96753

The following fields are less frequently searched!

Officer Address

Officer's personal address.

Officer Address 2

Second line of officer's personal address.

Officer City City within officer's personal address.

Officer State State within officer's personal address.

Officer Zip Zip code within officer's personal address.

Xref Name Crossreference name *(Included in COMPANY NAME search!)*

NOTE: To format the field XREF NAME sepecifically for downloading in a LOTUS 1-2-3 fashion, type "**XREF NAME DOWN**" at the Show: prompt. For more information on Downloading turn to page 9.

Xref Name 2 Crossreference name 2 *(Included in COMPANY NAME search!)*

NOTE: To format the field XREF NAME 2 sepecifically for downloading in a LOTUS 1-2-3 fashion, type "**XREF NAME 2 DOWN**" at the Show: prompt. For more information on Downloading turn to page 9.

BREGS SEARCHABLE FIELDS CONTINUED...

Incorporation State,

Inc State State or Country in which corporation was formed.

Incorporation Date,

Inc Date Date company was incorporated in Hawaii.

Similar Name

Similar name that conflicts with the corporation name, partnership name, tradename/mark registered or name being reserved. *(Included in COMPANY NAME search!)*

Consent Name

Person giving consent to corporation name, partnership name, tradename/mark or reservation of name.

Service Address

Principle address in state or country of incorporation.

Service Address 2

Second line within the principle address.

Service City City within the principle address.

Service State State within the principle address.

Service Zip Zip code within the principle address.

Mailing Address

Address to where official documents are to be sent.

Mailing Address 2

Second line of Foreign mailing address.

Mailing Address 3

Third line of Foreign mailing address.

Mailing City

City within the Foreign mailing address.

Mailing State

State within the Foreign mailing address.

BREGS SEARCHABLE FIELDS CONTINUED...

Mailing Zip

Zip code within the Foreign mailing address.

Term

Term of existence of corporation (P - Perpetual) or date when a Hawaii limited partnership term of existence expires.

Limit Date

Self-imposed limit on term of existence (i.e. 50 years).

Vote

Percentage vote required is higher than minimum set by law, field is blank for foreign corporations.

Security Dealer

“Y” in the field means the corporation is a registered securities dealer. Securities registration records are separate from corporate records.

Service Name Agent for service of process for foreign partnerships only.

Partner Term Self-imposed expiration term on partnership.

NOTE: To format the field PARTNER TERM sepecifically for downloading in a LOTUS 1-2-3 fashion, type “**PARTNER TERM DOWN**” at the Show: prompt. For more information on Downloading turn to page 9.

Registrant

Name of person reserving the name. “C” or “P” after the name indicates a corporation or partnership name is being reserved.
